

ICE MAKER QUICK START GUIDE

IM200SS

Before You Start

1. Unpack your ice maker and let it stand upright for 1 hour before operating.
2. Make sure the ice basket and ice scoop are included.
3. Clean the interior with warm water and a soft cloth.

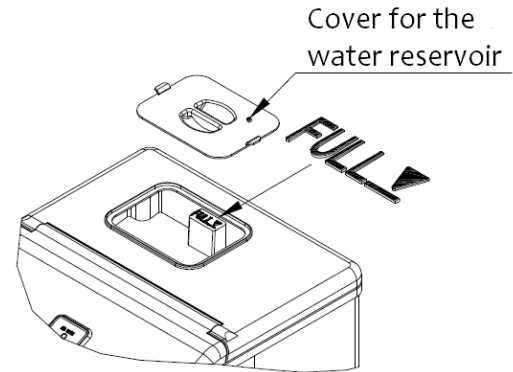

Making Ice

1. Remove the water reservoir cover and pour clean drinking water into the water reservoir.
 2. Plug the ice maker into a suitable electrical outlet.
 3. Press ON/OFF button to begin making ice.
- Notice: Place your ice maker in a location that is protected from direct sunlight and other heat sources.
- At least 4 inches of clearance on all sides is necessary to provide adequate ventilation and prevent overheating.

For full operation and safety information, please read the owner's manual that accompanies this product. For further assistance, contact Luma Comfort at 1-866-737-6390 or visit our website at www.LumaComfort.com.

Important: After unpacking your ice maker, it must rest in an upright position for at least one hour before you plug it in or the compressor may be damaged, shortening the life span of the unit.
